### Focus on Classes: The Basics

#### Binding Basics

What is the difference between straight grain or bias binding, double fold French binding and single fold binding? When do you use them? How do you make them using the same quality fabrics as your quilt? How do you make precise mitered corners every time? Learn and practice on the kit provided in class. After this class, you will know the answers to these questions and how to finish your quilt beautifully!

Level: Beginner

### **Revive your antique and modern quilts by cleaning with: Vintage Textile Soak**

Are those antique quilts or linens you've acquired stained with ugly brown spots, or have they lost their pristine status and turned yellow? These conditions occur when the natural fiber vintage textile has been stored in a cedar chest, dresser drawer or linen closet, resulting in the oils from the wood being absorbed by your cherished quilt top, christening dress, wedding gown, table linens, etc. With proper care, your heirlooms can be returned to their original pristine condition and enjoyed for many years to come!

### **Quilter's Rule Quilt Soap**

Multi-purpose soap cleaner for fabrics and quilts. Since 1932, Quilter's Rule Quilt Soap has been trusted by museum curators and quilt experts for a reason: we know that you are choosing to carefully clean, protect and care for what matters most to you. Quilt Soap is made with pure ingredients and is 100% phosphate free, 100% dye free, pH neutral and 100% biodegradable.
